DREW MAYER

PRODUCT DESIGNER | UX · INFORMATION ARCHITECTURE · CONTENT

Atlanta, GA · (973) 903-1686
Drewmacfarlane10@gmail.com · LinkedIn · Portfolio

Product Designer with 10+ years designing and improving digital experiences for global brands including Nasdaq, UPS and The Weather Channel. Specializes in turning complex products, information and workflows into intuitive experiences through interaction design, information architecture, prototyping, content strategy, usability testing and analytics. Led UX initiatives across 220+ UPS sites, contributing to a Forrester UX score increase from 40% to 92% and a Webby Award Honoree recognition for Best User Experience.

SKILLS

- Product Design: Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing, Design Systems, Accessibility
- Research & Strategy: User Research, Content Strategy, A/B Testing, Analytics, Content Audits, Stakeholder Interviews, Experience Optimization
- Tools & Collaboration: Figma, Agile, CMS Architecture, Component-Based Design, Cross-Functional Collaboration

EXPERIENCE

NASDAQ, UX Content Designer

06/2025 – Present

- Owned the design, prototyping, and buildout of 60% of Nasdaq.com’s redesigned sitemap and information architecture, contributing to the successful Q3 2026 launch of the new experience.
- Restructured navigation and information architecture across the Nasdaq.com redesign.
- Created content-first Figma prototypes, integrating UX copy and interaction decisions into designs and reducing stakeholder review cycles by 25%.
- Used analytics and usability insights to refine sitemap structure; defined Drupal CMS requirements that cut update time by 40%.

INTERCONTINENTAL EXCHANGE, Marketing Manager, Futures

05/2024 – 05/2025

- Led UX content strategy for ICE.com’s Futures experience, restructuring complex information and user flows to improve clarity, navigation, and self-service.
- Conducted stakeholder interviews to identify pain points and partnered with UX/UI designers to restructure complex data tables and charts for accessibility and clarity.

UPS, Senior Web Content Designer / UX Team Lead

11/2019 – 03/2024

- Led UX and content design for the global UPS.com redesign spanning 220+ sites, contributing to a Forrester UX score increase from 40% to 92% and earning a 2023 Webby Award Honoree recognition for Best User Experience.
- Partnered with UX, product, engineering, and business teams to design and launch component-based experiences across a global digital ecosystem.
- Redesigned The UPS Store information architecture, consolidating a 110-page site into an 8-page experience and reducing ongoing maintenance by 75%.
- Established scalable UX patterns and editorial standards across UPS.com; mentored and trained 15+ team members in UX, CMS, and accessibility.

The Weather Channel, Digital Editor

10/2015 – 02/2019

- Designed and optimized desktop and mobile digital experiences using audience behavior and engagement data; increased click-through rate by 22%.
- Managed digital workflows for a newsroom producing 100+ stories weekly and produced award-winning digital experiences including the Exodus: Climate Migration Crisis series.
